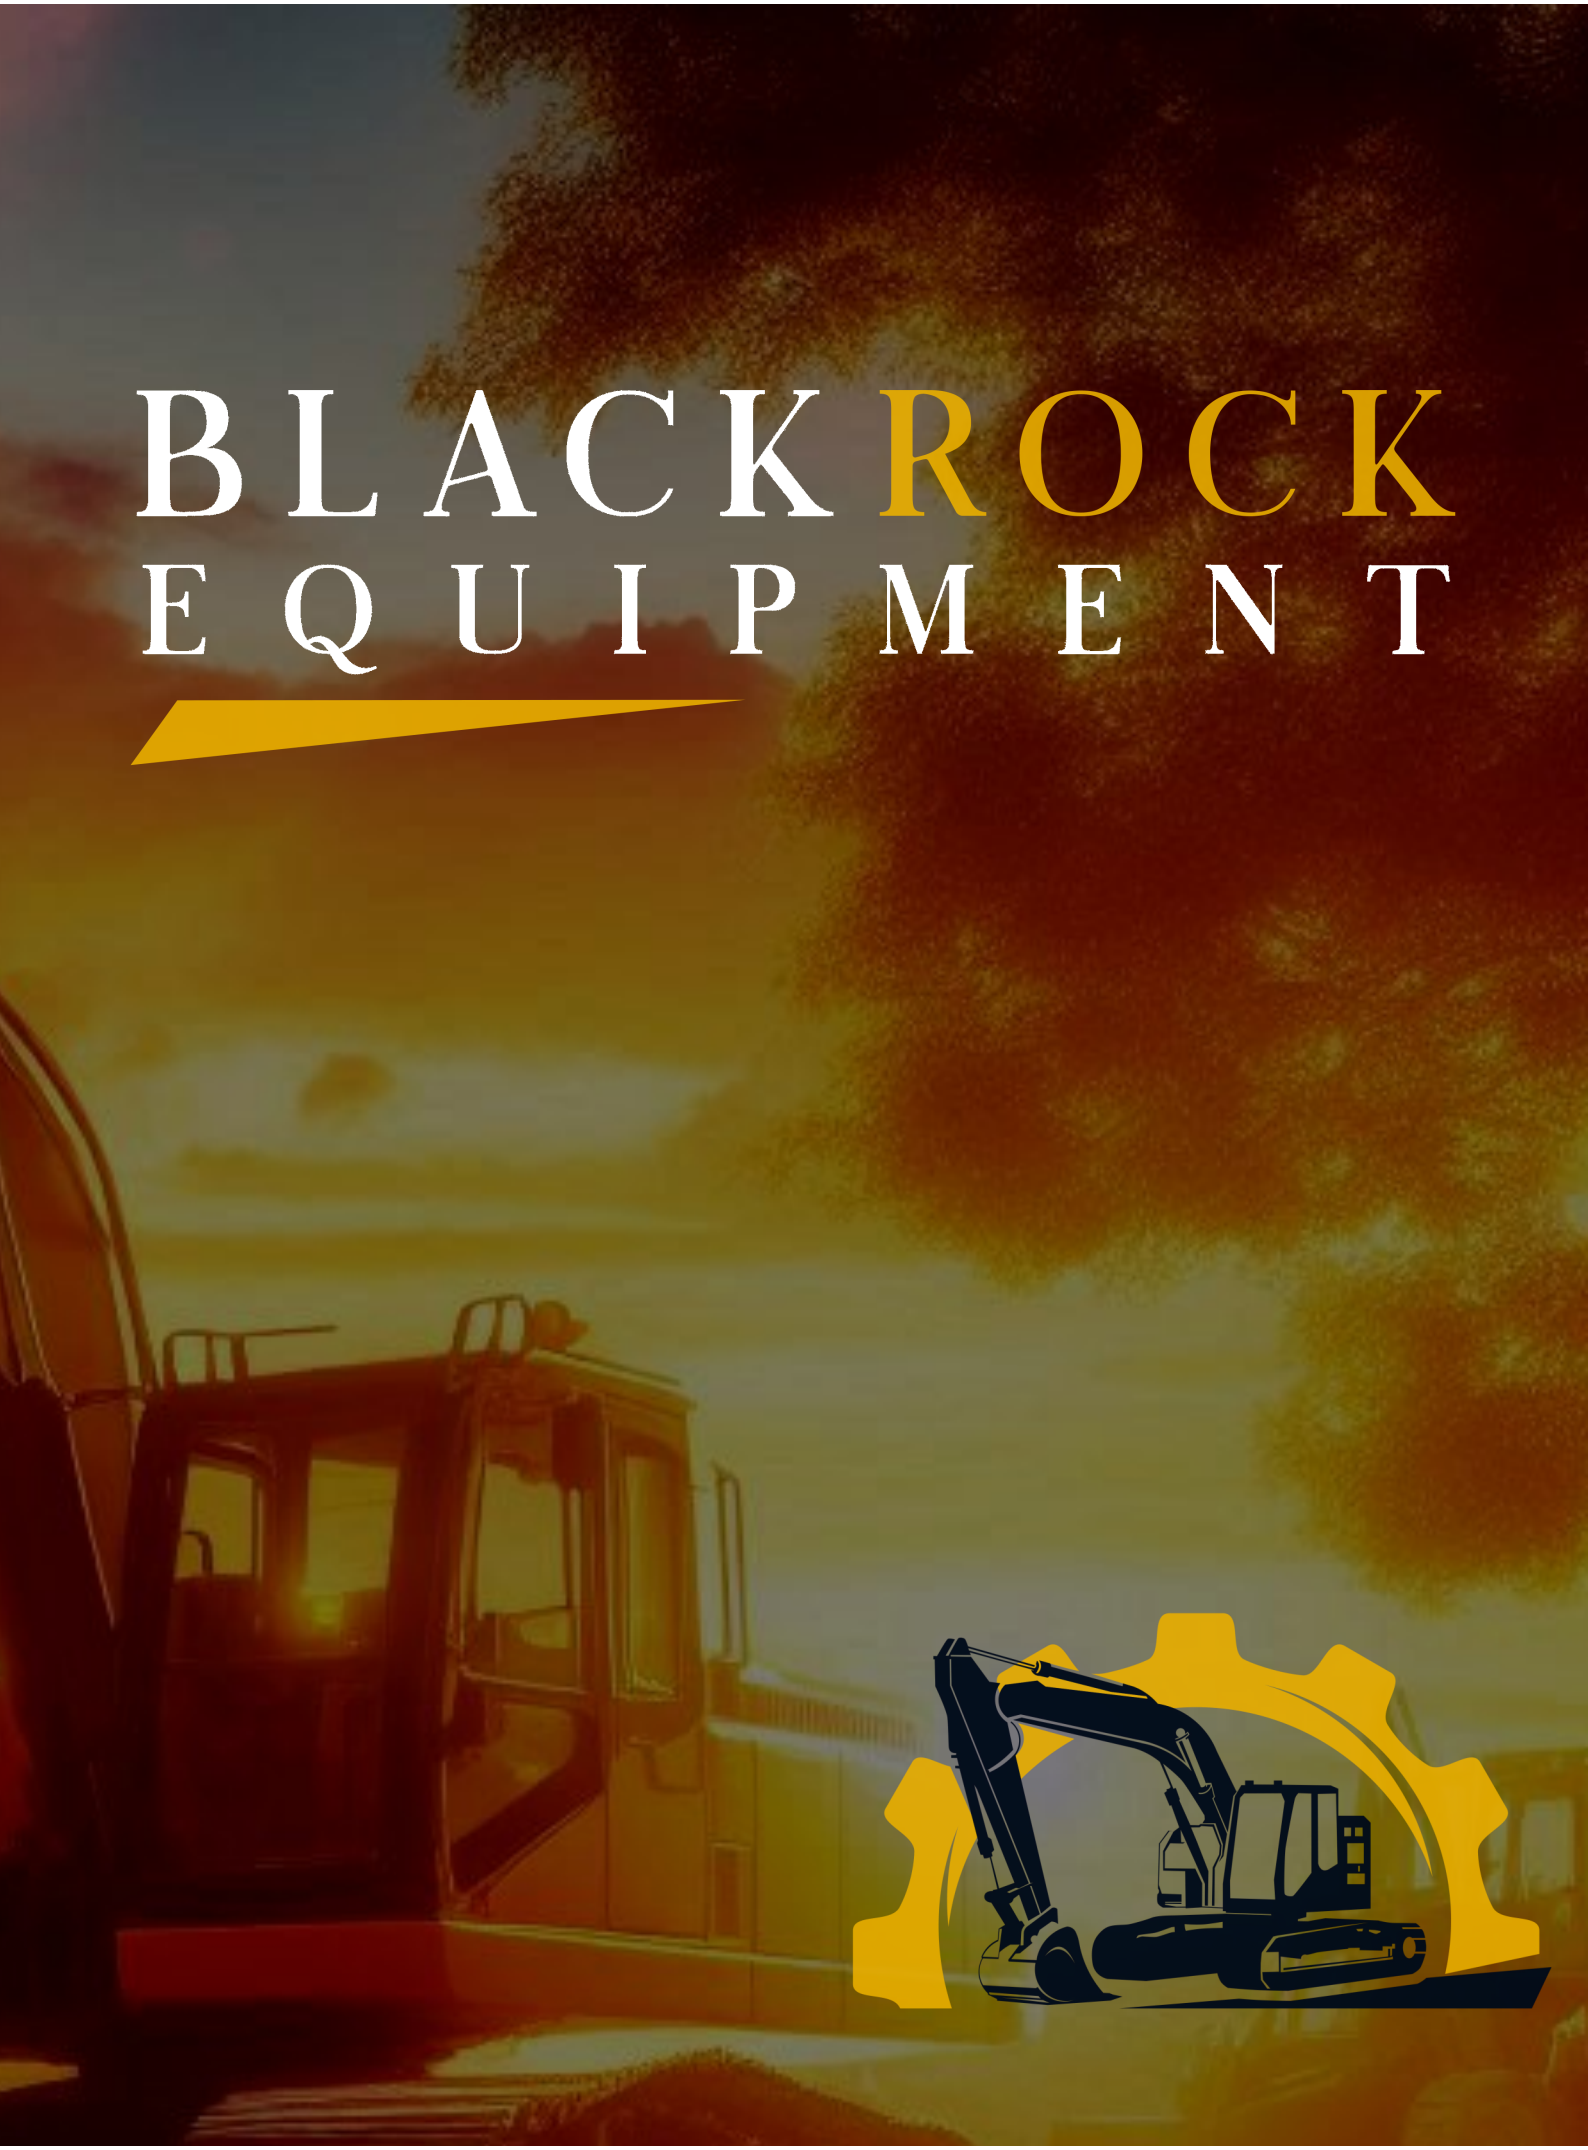
# BLACKROCK EQUIPMENT



# ABOUT US

Black Rock Equipment was born from the shared vision of two dedicated founders determined to make a mark in the mining industry. Headquartered in Gauteng, South Africa, we extend our services throughout Southern Africa, delivering specialized solutions with a focus on excellence and reliability.

Our core offerings include component rebuilds, machine rebuilds, and plant hire, designed to keep your mining operations at peak performance. With our in-house dyno-testing capabilities, we ensure every transmission or drive-train component we rebuild meets rigorous standards for durability and efficiency. When unexpected breakdowns strike, our experienced field service team is equipped to respond quickly, minimizing disruptions and maximizing uptime.

Backed by a team with extensive mining expertise, Black Rock Equipment combines technical precision with hands-on know-how. From revitalizing critical components to providing fully rebuilt machines and reliable plant hire options, we're committed to supporting your success across the region.

At Black Rock Equipment, we're not just a service provider we're your partner in driving productivity and profitability in the mining sector. Trust us to deliver solutions that work as hard as you do.

### MISSION STATEMENT

At Black Rock Equipment, our mission is to transform lives by training and mentoring upcoming technicians to excel in their craft, building high-quality components and machines with pride. We instill in them the importance of valuing their name and the service they provide, ensuring our clients receive the quickest possible turnaround time when they rely on us. Through this dedication to excellence and efficiency, we empower our clients with reliable solutions that position them for success.

### VISION STATEMENT

At Black Rock Equipment, we envision a future where we stand as a leading force in the mining industry, delivering unparalleled service to South African mines and cross-border firms throughout Southern Africa. We see ourselves driving growth in the mining sector by providing innovative, high-quality solutions that meet the evolving needs of our clients. Through our commitment to excellence, we aim to create sustainable job opportunities, fostering prosperity in the communities around us and building a legacy of impact and reliability across the region.

### MACHINE REBUILDS

- EXCAVATORS
- DOZERS
- WHEEL LOADERS
- ARTICULATED DUMP TRUCKS (ADT'S)
- LHD'S
- GRADERS
- RIGID TRUCKS

And many more...

### COMPONENT FOCUS

- ENGINES
- TRANSMISSIONS / GEARBOXES
- TORQUE CONVERTORS
- DIFFERENTIALS
- FINAL DRIVES / WHEEL STATIONS
- HYDRAULIC CYLINDERS
- HYDRAULIC PUMPS / MOTORS
- AXLES

## MORE OF US...

The story of Black Rock Equipment & Plant, began with a strong foundation built on shared experience and a passion for the mining industry. Our Directors both started their careers by completing their apprenticeships, where they developed a deep understanding of heavy machinery, component rebuilds, and the demands of the mining sector.

After their training, they set out to work across Africa, spending a number of years honing their skills in diverse mining environments, from the copper mines of Democratic Republic of Congo to the gold fields of Ghana. Those years abroad gave them invaluable insights into the challenges and opportunities of the industry on a continental scale.

Upon returning to South Africa, both Directors reconnected with each other, and together they saw an opportunity to combine their expertise and build something impactful.

In Gauteng, the heart of South Africa's industrial hub, they founded Black Rock Equipment, a company dedicated to delivering excellence in component rebuilds, machine rebuilds, and plant hire.

With our combined knowledge and a shared vision to change lives through quality service and training, they set out to serve mines across Southern Africa, creating a legacy of reliability and growth in the mining sector.

## KEY AREAS

At Black Rock Equipment, we are guided by the following core values that define who we are and how we operate:

1. **Excellence in Craftsmanship**

We are committed to delivering top-quality components and machines, rebuilt with precision and tested to the highest standards in our in-house dyno-testing facility. Every task we undertake reflects our dedication to superior workmanship that our clients can rely on.

2. **Speed and Reliability**

We prioritize the quickest possible turnaround times without compromising quality, ensuring our clients—whether South African mines or cross-border firms—experience minimal downtime and maximum productivity. Reliability is at the heart of every service we provide.

3. **Empowerment through Training**

We believe in changing lives by mentoring and upskilling our technicians, equipping them with the knowledge and pride to excel. By investing in our team, we build a foundation for innovation and service excellence that drives our company forward.

4. **Client-Centric Partnership**

Our clients are our priority. We work closely with mining operations across Southern Africa to understand their needs, delivering tailored solutions that position them for success and contribute to the growth of the mining sector.

5. **Integrity and Accountability**

We value our name and the trust placed in us. Every interaction, from on-site breakdown support to plant hire, is conducted with honesty, transparency, and a commitment to delivering on our promises.

6. **Community and Job Creation**

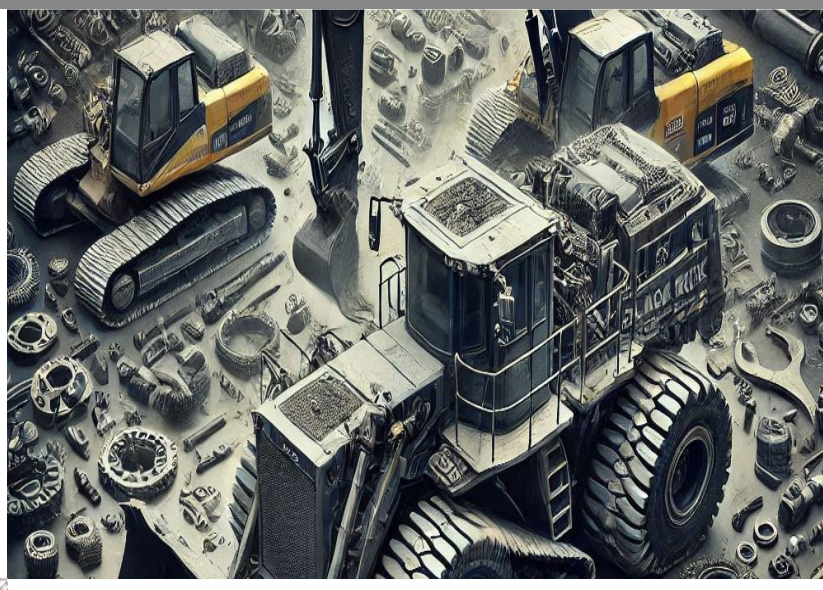
We strive to be a catalyst for prosperity, creating sustainable job opportunities in Gauteng and beyond. By supporting the mining industry's growth, we uplift the communities around us and build a stronger future together.

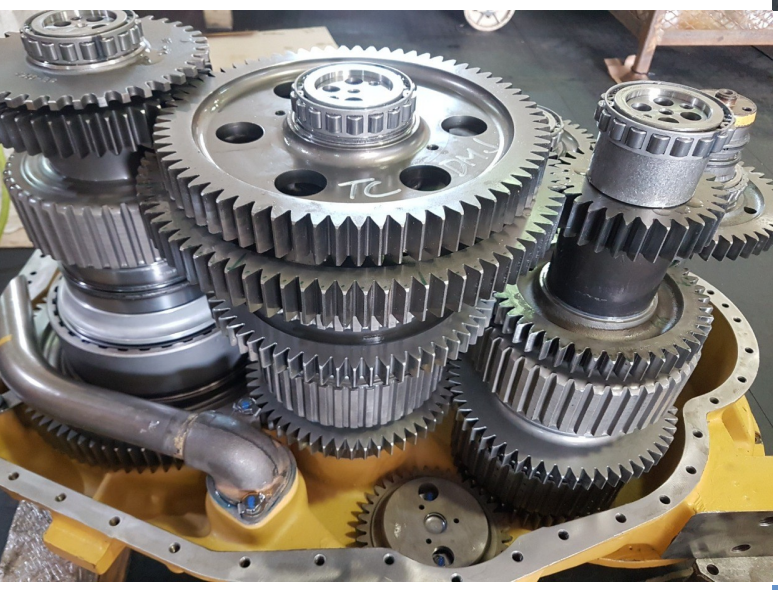
7. **Innovation and Adaptability**

As the mining industry evolves, so do we. We embrace cutting-edge techniques and flexible solutions to meet the diverse demands of our clients, ensuring Black Rock Equipment remains a leader in servicing Southern Africa's mining needs.

## Machine Rebuilds

Restore your heavy machinery to its original performance with our comprehensive rebuild services. We specialize in overhauling worn-out equipment, ensuring reliability and enhanced efficiency for prolonged service life.





## Component Rebuilds

Maximize the lifespan of critical machine components through expert-level restoration. We rebuild parts such as transmissions, engines, hydraulic systems, and more, utilizing top-quality materials and advanced techniques.

## Field Services

Our skilled technicians provide on-site support and troubleshooting, minimizing downtime and ensuring your machines operate smoothly in their working environment. From diagnostics to repairs, we've got your field needs covered.

## Machine Plant Hire

Need heavy machinery for a project?

We offer a wide range of equipment available for hire, tailored to suit your specific tasks—whether it's construction, mining, or any other industrial operation.

## Parts Procurement

Simplify the process of sourcing and purchasing replacement parts. We guarantee genuine, high-quality parts to keep your machinery running optimally, paired with expert advice on selection.

At Black Rock Equipment, our journey has always been guided by our commitment to excellence, innovation, and unwavering dedication to serving our customers and stakeholders. As we look ahead, we remain devoted to creating impactful solutions and fostering meaningful relationships that drive success and growth for all.

We are committed to responsible mining practices that drive progress and sustainability. With a dedication to innovation and environmental stewardship, we strive to deliver high-quality services while fostering positive impacts on the communities we serve.

Together, we can achieve extraordinary results. For more information or inquiries, please visit our website or contact us.

Together, we can build a legacy of sustainable growth.
